問題

1. What flow / cases will cause POS -> HYBRIS -> Refund
2. If refund by HYBRIS it must be mall dollar? (因為如果個客用credit card俾錢，但最後打電話問csis，csis & hybris suppose用唔到N5機去退款)
 - default refund by original payment method. For octopus case, refund by mall dollar for customer and refund by manual flow (manual credit card/bank-in) for non-customer.
